Experience

Full Stack Developer @ SEG

Sept 2025 – Present

Delhi (Onsite)

- Architected and built scalable web applications using **Next.js** and **Python (FastAPI)**, serving 10,000+ daily active users.
- Designed and developed **15+ REST APIs** with JWT authentication, role-based access control, and rate limiting for secure data handling.
- Worked with **PostgreSQL and MongoDB** to design efficient data models, optimize queries, and implement caching—reducing API response time by 40%.
- Deployed production-ready applications on **GCP** with automated CI/CD pipelines using GitHub Actions.
- Collaborated with UI/UX designers to implement responsive, user-friendly interfaces using Next.js and Tailwind CSS.
- Conducted code reviews, wrote clean maintainable code, and followed best practices for scalability and performance.

Frontend Developer @ Pearl Thoughts

Jul 2025 – Aug 2025

Remote

- Built responsive, high-performance UIs using React.js and Tailwind CSS with pixel-perfect design implementation.
- Integrated LLM APIs for AI-powered features, improving user engagement by 20%.
- Optimized performance using code splitting and lazy loading, reducing bundle size by 35%.

Node.js Developer Intern @ Inlign Tech

Mar 2025 – Jul 2025

Remote

- Developed and integrated 10+ REST APIs for enterprise applications handling 100K+ daily requests.
- Optimized MongoDB queries using indexing and aggregation pipelines, reducing response time by 25%.
- Implemented secure JWT authentication and OWASP best practices ensuring data protection.

Full Stack Developer Intern @ PurpleMerit Technologies

Aug 2024 – Dec 2024

Bengaluru (Remote)

- Developed full-stack web applications using React.js, Node.js, and MongoDB with RESTful API integration.
- Built responsive UI components and optimized application performance.
- Collaborated with cross-functional teams in an Agile environment to deliver project milestones.

Projects

AIVOA: AI-Powered Complaint Management System

Next.js, FastAPI (Python), PostgreSQL, LangGraph

🐙 GitHub

- Enterprise-grade full-stack QMS built with **Next.js** frontend and **FastAPI (Python)** backend.
- Designed a complex **PostgreSQL** database with robust relationships and efficient query optimization.
- Architected multi-agent AI pipeline with LangGraph and Groq API for automated analysis.
- Containerized full application (Frontend, Backend, DB) using Docker for seamless deployment.

Saroj Premier League (SPL) - Tournament Management

Next.js 14, TypeScript, Prisma, MongoDB

 [GitHub](#)  [Live Demo](#)

- Production-ready tournament website with live scoring, team management, and analytics.
- Built with **Next.js 14**, **TypeScript**, Tailwind CSS, and Prisma ORM with MongoDB.
- Responsive design optimized for 1000+ concurrent users with efficient data fetching.

Medical File Gallery - Document Management

Next.js 16, TypeScript, Prisma, PostgreSQL

 [GitHub](#)  [Live Demo](#)

- Full-stack document portal with admin panel, role-based access, and file management.
- Public gallery with search, filter, and preview using NextAuth.js and Cloudinary.
- Database powered by **PostgreSQL (Neon)** with Prisma ORM handling 10K+ records.
